HTC REPORTS FIRST QUARTER 2025 RESULTS

Taipei, Taiwan – May 8, 2025 – HTC Corporation (TWSE: 2498), a global leader in immersive and connected technologies, today announced consolidated results for first quarter ended March 31, 2025.

1Q25 Financial Highlights：

- Quarterly revenue of NT$0.71 billion with a gross margin of 37.6%.
- Quarterly operating loss of NT$1.14 billion with an operating margin of -161.5%.
- Quarterly net income attributable to owners of the parent was NT$4.05 billion, or an EPS of NT$4.86.

1Q25 Business Update：

- HTC and Google completed a US$250 million definitive agreement in Q1 under which certain HTC’s XR R&D team joined Google and Google was granted a non-exclusive license to HTC’s XR intellectual property (IP). This agreement strengthens HTC's ongoing strategy to develop the XR ecosystem, build the VIVE brand, streamline its product portfolio, and focus on long-term plans for future platforms, enhanced operational efficiency, and greater financial flexibility.

- At MWC 2025, HTC showcased its latest XR innovations, including VIVE Mars CamTrack, a lightweight virtual production solution with AI-powered dynamic interaction for precise camera tracking and real-time engagement in virtual environments. VIVE also introduced VIVE Host, a seamless solution for managing multiple VR headsets, redefining immersive training, education, and enterprise experiences. Partnering with global players, HTC demonstrated XR applications across industrial training, mental health, and business use cases, advancing a more open, diverse, and intelligent internet for both enterprises and consumers.

- VIVERSE unveiled VIVERSE Create, a no-code 3D creation platform, and VIVERSE Worlds, a new hub for hosting and sharing 3D content at MWC 2025. Powered by an AI-driven 3D engine and an open, interoperable framework, users can instantly convert 2D assets into 3D models and access millions of free assets via the Sketchfab library, lowering barriers to 3D content creation and accelerating the development of 3D Internet. With Polygon Streaming, the platform delivers high-fidelity visuals in real time, even under low bandwidth conditions.

- G REIGNS introduced AI-enabled smart factory solutions at MWC 2025, including autonomous mobile robots (AGVs), AI security monitoring, and drone inspection technologies. These innovations advance Industrial 5.0, unmanned warehousing, and remote management applications, helping enterprises enhance efficiency and safety. G REIGNS also partnered with MediaTek to showcase 6G Hybrid Computing technologies, exploring future blueprints and potential applications for 6G networks.

- G REIGNS deployed Private 5G Network and Edge Cloud VR Solution at Nissan Motor Co., Ltd., providing a stable, high-speed, low-latency immersive collaboration environment. This initiative ensures secure team collaboration while showcasing advanced 5G wireless VR applications in industrial design, enabling real-time, high-precision teamwork that accelerates product development cycles, enhances decision-making quality, and brings breakthroughs to design processes.

- VIVE Arts partnered with Château de Versailles and launched a landmark immersive VR experience, *Versailles: The Lost Gardens of the Sun King*. Through HTC VIVE's location-based entertainment (LBE) technology and VIVE Focus Vision headsets, visitors are transported into three emblematic sites — the Royal Menagerie, the Labyrinth Grove, and the Grotto of Tethys — to closely explore lost royal history and Louis XIV's legacy, vividly bringing the splendor of 17th-century France back to life.

- Ends –
