

HTC REPORTS SECOND QUARTER 2025 RESULTS

Taipei, Taiwan – August 6, 2025 – HTC Corporation (TWSE: 2498), a global leader in immersive and connected technologies, today announced consolidated results for second quarter ended June 30, 2025.

2Q25 Financial Highlights :

- Quarterly revenue of NT\$0.7 billion with a gross margin of 36.5%.
- Quarterly operating loss of NT\$0.84 billion with an operating margin of -120.3%.
- Quarterly net loss attributable to owners of the parent was NT\$0.72 billion, or an EPS of -NT\$0.86.

2Q25 Business Update :

- HTC has partnered with AT&T, Mynd Immersive and the third-party rehabilitation provider in the U.S.- Select Rehabilitation to expand its digital healthcare footprint across the country. Through this collaboration, the immersive XR therapy platform MyndXRSM and the VIVE XR Elite are being introduced to more than 150 senior living communities across the United States. By integrating technology-assisted therapy, the initiative aims to provide seniors with greater companionship and support during rehabilitation, holistically enhancing their cognitive, emotional, and physical well-being.
- VIVE Arts collaborated with the Paris Opera and VR studio BackLight to launch the immersive multi-user experience *La Magie Opéra* in celebration of the 150th anniversary of the Palais Garnier. *La Magie Opéra* blends visual, auditory, emotional, and spatial elements, fully immersing participants in the rich historical and cultural legacy of opera, while offering iconic operatic arias. VIVE Arts is spearheading a variety of art initiatives in Paris, including *Playing with Fire*, an immersive experience featuring pianist Yuja Wang, which will be presented at the Philharmonie de Paris in November.
- VIVERSE introduced the VIVERSE Create platform to classrooms at the University of Texas at Austin. This partnership brings the boundless possibilities of WebXR 3D experience, helping students develop skills in virtual world creation, interactive design, and immersive storytelling, and further strengthen their XR and 3D content creation capabilities for future careers. Students at National University of Kaohsiung also utilized VIVERSE Create to develop *Loading- Walking Between the Real and Surreal*, a digital twin art gallery that showcases traditional culture fused with digital creativity, highlighting the innovative potential of technology to empower education and artistic expression.
- HTC announced the signing of a strategic memorandum of understanding with NTT Communications to collaborate on the development of large-scale Location-Based Entertainment (LBE) applications across Japan, tapping into the next generation of immersive experiences. By combining XR technologies with physical environments, the partnership aims to bring immersive experiences to a wide range of fields such as culture, entertainment, education, and tourism, bridging the virtual and physical worlds while fostering venue innovation and local cultural revitalization.
